LIGHTING
SOLUTIONS

With the introduction of Lighting Solutions, DB Link has started a new era for LED enthusiasts. We develop and manufacture our products to withstand the elements associated with the rigorous outdoors. We stand behind our newly created LED technology and cutting edge design.

LIGHTING
SOLUTIONS

TABLE OF CONTENTS

LIGHT BAR HIGHLIGHTS

High Output Optical Lens
designed reflective lens harnesses and amplifies the LED LUX strength

Weather Proof Chassis
Gasket infused sealing to ensure a 100% waterproof chassis

Polycarbonate Lens
Shatterproof polycarbonate lens with High PSI impact strength

Low Current consumption
delivers superior lighting capabilities without overloading your electrical system

Worry Free Technology
4 Plex Chip design to ensure uninterrupted thermal controlled LED performance

Extended LED life cycle
High output CREE LEDs with 65,000 + hours usable lifespan

Full Colored Giftbox

LIGHTING SOLUTIONS

www.DBLINKLIGHTINGSOLUTIONS.com

IP 67 Element Rated Housing
Ensures seamless performance in any type of environment or weather condition

IP67
WATERPROOF

Efficient Heat Sink Design
Oversized heat sink keeps CREE LED's running cooler, brighter for longer lasting performance.
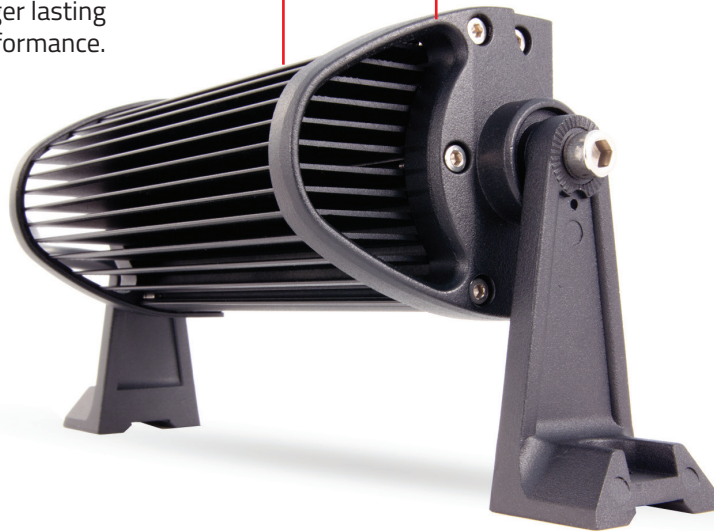

Type III Black Hard coat anodizing
an Anti- corrosive protective finish that ensures a high end finish for years to come

Universal Mounting
Brackets slide horizontally and pivot vertically for optimal adjustment while rubber feet control vibration

Rust Free Anti-corrosive hardware
Stainless steel assembly bolts and mounting hardware

Our CX Curved Off-Road L.E.D. Light Bars

mimic the radius contour of most windshields and front bumpers found on ATV, UTV, trucks and SUVs for a seamless integration. Designed with a curved chassis and narrow beam LED lens, the CX Light Bars focus on long range distances with a wider light dispersion allowing them to illuminate everything in and around the forward path

JEEP LIGHT BAR BRACKETS

Jeep Windshield Brackets

Our jeep mount kits are specifically designed to fit the jeep wrangler JK series. These brackets will fit a 50" LED light bar (not Included) over the windshield of your jeep JK using the existing mounting points on the A-pillars. No drilling or cutting required. Our brackets are made from heavy duty, high carbon, stamped steel material and come with a weather resistant black powder coat finish to match your new light bar.

Precisely made for the jeep wrangler TJ series. This bracket will fit a 50" LED light bar (not Included) over the windshield of your jeep TJ using the existing mounting points on the A-pillars. No drilling or cutting required. Our brackets are made from heavy duty, high carbon, stamped steel material and come with a weather resistant black powder coat finish to match your new light bar.

MODEL	DESCRIPTION	SOLD IN
DBTJWB501	up to 2002 Jeep TJ Windshield Bracket 50"	Pairs

Jeep Hood Mounts

Designed to fit with your JK series jeep wrangler, our light bar hood mount allows you to mount 12" or 22" Single row LED light bars (not included) to your hood. No drilling or cutting your hood in any way. Our brackets are made from heavy duty, high carbon, stamped steel material and come with a weather resistant black powder coat finish to match your new light bar. *Due to the mounting location of this bracket when used on 2013 and up jeep wranglers, interruption of the spray pattern from the windshield washer may occur.
